PSSL will retain all the Class E Notes and Subordinated Notes through a consolidated subsidiary. The reinvestment period for the term debt securitization ends in January 2024 and the Debt is scheduled to mature in January 2032. The term debt securitization is expected to be approximately 95% funded at close. The proceeds from the Debt will be used to repay a portion of PSSL’s \$325 million secured credit facility. In addition, PSSL acts as retention holder in the transaction to retain exposure to the performance of the securitized assets. GreensLedge Capital Markets LLC acted as lead placement agent on the CLO Transaction.

“This transaction allows PSSL to grow with low cost, long-term financing which is well matched to the lower risk nature of the underlying assets” said Arthur Penn, Chief Executive Officer of PFLT. “Having a three-year reinvestment period, an 11-year final maturity, and attractive pricing will enhance returns for the Company and PSSL. The resiliency of the portfolio through COVID-19 along with the strong performance of the Company’s first CLO led to a successful execution.”

The notes offered as part of the term debt securitization have not been, and will not be, registered under the Securities Act of 1933, as amended, or the Securities Act, or any state “blue sky” laws, and may not be offered or sold in the United States absent registration under Section 5 of the Securities Act or an applicable exemption from such registration requirements. The CLO is a form of secured financing incurred and consolidated by PSSL. This press release shall not constitute an offer to sell or a solicitation of an offer to buy nor shall there be any sale of the notes in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.
